

Exploring Musical Genres

Music Media Class at VMS

Task:

Working **independently**, you will research musical genres using Google and put together a presentation that will be shared with Mr. Podmers only.

Due at the end of the hour on Monday.

You will explore the following 8 genres:

1. Heavy Metal
2. Rap
3. Country
4. Classical
5. Jazz
6. Techno
7. Light Rock
8. Pop

Expectations:

Your presentation must...

1. Include at least 8 slides, one for each genre. You CAN have more than 8 slides though.
2. Describe the music in each genre (use creative, specific adjectives). How do others describe this genre's music?
3. Include 2 important artists from that genre and why they were/are important.
4. Include 4 pictures or graphics total.
5. Be clear and professional. How can you make your presentation look attractive and neat? It should be easy to view.

You will be assessed on three things:

1. How well you follow the assignment instructions (#1-5)
2. How well you described each genre
3. If you listed 2 important artists for each genre
4. How professional your presentation looks. Have a couple of people read/edit it before you hand it in.
5. Was it turned in on time?
