ASSIGNMENT #1: Logo Mash Up

Using Photoshop, create a “logo mash up” that includes at least 5 different logos combined into one unique design. Use the different tools to make it look seamless and clean. Spend time cutting out pictures neatly with the **lasso, magic wand, and quick mask tools**. Use multiple layers and opacity to create depth. Use the smudge and blur tools to soften edges of pictures to make them blend more. Listed below are the criteria for the project. You will have one week to complete it. Your design must include:

Use of multiple layers:	____/5
At least 5 different “logos” included:	____/5
Use of cut out tools?	____/5
Quality of product: Is the project seamless and clean?	____/10
Turned in on time via Collab/Classroom as a .psd file	____/5
Write Up – Explain the process of what tools you used while working on project	____/10
Identify and explain how 5 elements of design apply to your work	____/10
Use of class time Did you use all of the time necessary to complete it? (4 points per day):	____/20
Total	____/70
