PLAYBILL PROJECT using Photoshop

Using the program Photoshop CS6, You will design the cover of a "Playbill" type program or advertisement for one of your videos you made this trimester. Look at examples of professionally made Playbills on Google Images... notice there is not a lot of words (mostly just the title of the play/movie). Also, there aren't any covers that use a whole picture as the cover (meaning they have a background and at least one graphic on top of the background). Use your Photoshop skills! Cut stuff out, distort, transform, use opacity, etc!

Project must include:

1. At least 2 graphics (ex: background and subject) _____/6

2. Title of your video _____/4

3. AT LEAST 2 basic Photoshop effects (ex: stroke, shadow) _____/6

4. 1 major effect done using tutorial (video or written instruct.) _____/6

6. Size is 8.5 x 11 inches _____/2

Quality of product:

Is the project seamless, clean and challenging? _____/6

Use of class time:

(4 Points per day, 3 days for the project) _____/12

Total _____/46
