

Valley Middle- School of STEM
Video Editing with Mr. Podmers, Room TTC Lab
Practice Assignment
Using iMovie 10.0.5

Project:

Working by yourself, make a video using the basic tools of iMovie. No longer than 1 minute, theme or no theme, it should still “flow” or transition smoothly from picture to video to song to picture, etc.

Project Steps:

1. SAVE at least 5 high resolution (500 pixels +) pictures from Google Images to your server folder.
2. Import pictures to iMovie and add to the Timeline in the order you would like them to appear.
3. Download a SHORT You Tube video (30 seconds or shorter) using online youtube downloader like SAVEFROM.NET
4. Make at least 2 sub clips from the You Tube video and insert into Timeline.
5. Add at least 2 transitions to your video (fade in/out).
6. Make an audio track using Garage Band (can be sound effects or music, but needs to be at least 10 seconds long).
7. Export the song as an MP3 (save it to your Google Drive)
8. Import to iMovie and insert into Timeline.
9. Export video as a “FILE.”
10. Turn in to Mr. Podmers via Collaboration Station (“Collab”)

Grading:

5 Pictures: High resolution 1pt each	____/5
2 Subclips from You Tube video 5pts each	____/10
At least 2 transitions (between pictures/clips) 2pts each	____/4
Audio Track (from Garage Band) 8pts, export as .mp3 file 2pts	____/10
Video exported as “file” & turned in via Google Classroom. 3pts each	____/6
Total	____/35

Daily Points (4 points per day) “Student is on task” (3 days)

Total _____/12

PROJECT TOTAL _____/47 points
