

## Steps for Using the Stika (Small Vinyl Cutter)

1. OPEN your file. **Move your graphic(s) to the TOP LEFT corner** of the screen. RESIZE, COPY/PASTE if needed.

2. **Use scrap pieces of vinyl that are 11 inches wide** (or enough to fit under BOTH rollers, but not too wide either. Cut bigger pieces down to size using scissors.

3. **Feed through the FRONT** of the machine by rolling the vinyl up to the red arrows using the knob on the left. **The red arrows point to grooves. Roll up to the grooves, but not past the grooves.**

4. Click "**CUTTING.**" Then click "**OK.**"
